

# Online Recordings

We recognise there will be times where attending a face-to-face or Live Online training session at the scheduled time is not possible.

[www.taxbanter.com.au](http://www.taxbanter.com.au)

With this in mind, we are pleased to make available Online Recordings of Live Online training sessions.

The recordings offer the benefits of Live Online training, in that you will see and hear the presenter's response to questions asked during the session.

Each recording includes:

- The ability to play the recording three times
- The same comprehensive training notes that are provided to participants in Live Online sessions

You can register at any time for an Online Recording and they will be available to view 24 hours after the Live Online session has ended.

## What are the benefits?

- No travel time to and from sessions
- View Online Recordings at a time and place that suits your needs
- Training qualifies as eligible CPE/CPD hours
- Training is developed and delivered by highly experienced tax professionals

## How long do I have to view the Online Recording?

Please check the individual expiry date for each Online Recording.

## What training is offered as an Online Recording?

Training	Frequency	Session price	Series Price	Discounts
Tax Update	Monthly	\$165.00	\$1,650.00
